## Product Data Sheet

---

**Product:** BOSTEX 966

**Description:** A 50% active aqueous Polyisoprene Masterbatch dispersion.

### Specifications(Tentative):

|                      |                                  |
|----------------------|----------------------------------|
| Appearance / Color : | Light Yellow to Cream-Colored    |
| Active Solids :      | 50%                              |
| Total Solids :       | 49.3% - 53.3%                    |
| pH :                 | 9.5 - 11.5                       |
| Viscosity :          | 400 - 2000 cps(RVF #3 @ 10 RPMs) |
| Mean Particle Size : | Less than 5.0 Microns            |
| Odor :               | Slightly Ammoniacal              |

**Storage and Handling:** Store material in a cool, dry place. Protect from freezing. Contents should be adequately stirred before using to insure that the dispersion is thoroughly mixed and uniform. If a container is opened and only partially used, insure that the container lid is properly closed and secured to prevent contamination and minimize evaporation. Stock should be used on a first in-first out basis. Shelf life of the material is expected to be 1 year from date of manufacture.
